

# Northwich Transport Strategy

Have your say on the new transport strategy for Northwich, by giving your views on how the town can improve transport links. The strategy is being developed to address current traffic congestion issues and support the future housing and regeneration plans for the town and wider urban area. The plans and proposals will be included in a public consultation from Monday 25th September to Sunday 31st December 2017.

Public drop-in sessions have been scheduled as part of the consultation to consider draft recommendations and proposals.
