

Coordinated community response to COVID-19 launched

Cheshire West and Chester Council, Cheshire West Voluntary Action (CWVA) and the voluntary and community sector are all working closely together to provide an opportunity for residents to volunteer in the fight against COVID-19.

An online form has been created for residents to pledge their support for local communities, helping to make sure west Cheshire's most vulnerable residents have access to things like essential food and medical supplies, as well as somebody to keep in touch with during any periods of self isolation.

Once residents have completed the online form, CWVA will signpost them to the charities and community groups in their area so they can do their bit to tackle COVID-19. Residents can also state what kind of volunteering they would be interested in so they can be matched with the ideal charity or community group.
